

Abundance Of

For you to be perfect, what are the 25 things you would need to have an abundance of?

What are the specific feelings, resources, opportunities, environments, support systems, areas of knowledge, skill sets, competencies, relationships, and networks you would need to be a perfect person, without struggling to be one?

Would support be helpful?

Crafting and creating yourself as a perfect person is a lot more fun when you can focus with a friend, partner, colleague, or professional coach. Especially important is how you identify and articulate each of your 25 elements. Properly phrased, each element will excite and naturally motivate you. Poorly phrased, you may feel pressure to perform, or the items may become just more shoulds or coulds in your life.
